Dear Parents and Community Members:

I am pleased to present you with the Annual Education Report (AER) which provides key information about the continuous improvement goals and educational progress of Hayes Elementary School students based on 2016-17 assessment results. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability and teacher quality. If you have any questions about the AER, please contact me, Sheila O'Kane, Principal of Hayes Elementary School, for assistance.

The AER is available for you to review electronically by visiting the following web site <http://hayes.livoniapublicschools.org> or you may review a copy in the main office of our school.

Schools have been identified using new definitions and labels as required in the Every Student Succeeds Act (ESSA) based on their 2016-17 State Testing Results. A Target Support and Improvement (TSI) school is one that has at least one underperforming student group. An Additional Targeted Support (ATS) school is one that has three or more underperforming student subgroups. A Comprehensive Support and Improvement (CSI) school is one whose performance is in the lowest 5% of all schools in the state. Some schools are not identified with any of these labels. In these cases, no label is given. Our school has not been given one of these labels.

The AER has two major sections to it that are required by state law. The information contained in the first section was compiled by district staff. It presents relevant information about our district, our academic programs, school improvement efforts, two years of results on district developed assessments and nationally norm referenced assessments. It also includes the district's parent involvement policy and specialized programs.

The second section of the report contains information provided by the Michigan Department of Education. Based on this data, our school has identified our growing economically disadvantaged subgroups of students, for whom additional interventions and supports are needed in order to increase their proficiency and to close the achievement gap in the targeted academic areas. We have also identified the Bottom 30% in science as a subgroup, for whom additional supports in science reading and content are needed to close the gap.

As a Title I school, we have in place a multi-tiered system of support that provides students with classroom support along with Title I support. These supports include the use of the research-based interventions such as the reading program, Leveled Literacy Intervention, so that students can successfully read grade level material. We also provide students who are not reading at grade level, science content at their reading level. In addition, we have on-going professional development and dialogue focusing on strategies to support struggling learners. We utilize on-going assessments in order to determine the strengths and weaknesses of all students, including i-Ready reading and math diagnostic, followed by the provision of targeted learning interventions to the students that need them.

In addition, i-Ready instructional licenses have been provided for students testing low in our i-Ready reading and math beginning of year diagnostic. A before-school intervention program has been implemented, providing students with computer time to work in their instructional licenses and small

and individual group instruction for reading. The program includes two parent information nights, where students will share with their parents the amount of time they spend in i-Ready instructional, as well as their scores throughout the year.

These initiatives are intended to accelerate the student achievement of subgroups, including the state's Bottom 30%, that are not meeting our school's proficiency targets in science.

Our collaborative efforts positively impact our school's success and student achievement.

Sincerely,

Sheila O'Kane
Principal

BOARD POLICY

IDD

**INSTRUCTIONAL PROGRAM
PARENT INVOLVEMENT**

**JUNE 20, 2011
Reviewed 5/2014**

The Board strongly encourages and welcomes the involvement of parent(s)/guardian(s) in all of the District's educational programs. It is recognized and appreciated that parents/guardians are the "first teachers" of their children, and that their interest and involvement in the education of their children should not diminish once their child enters the schools of the District. Accordingly, the Board directs, by the adoption of this policy, that the administration shall design a program/plan that will encourage parent(s)/guardian(s) participation that may include, but not be limited to: The development and review of instructional materials; input on the ways that the District may better provide parent(s)/guardian(s) with information concerning current laws, regulations, and instructional programs; and District offerings of training programs to instruct parent(s)/guardian(s) how to become more involved in their child's educational programs.

Pursuant to state law, the Superintendent shall provide a copy of the District's Parental Involvement plan to all parents.
